SPONSORSHIP PROPOSAL

About the TFN's 2026 Fall Convening

This event — sponsored by our GREEN, Inclusive Economies and PPREP working groups — will bring together funders working at the intersection of climate and environmental justice, community resilience and economic opportunity to exchange ideas, strengthen collaboration and move our work forward during these challenging times.

With your support, we can:

Underwrite site visits and place-based learning experiences

Provide honoraria for community leaders and practitioners

Support participation of non-funder speakers and partners

Strengthen cross-sector dialogue across TFN Working Groups

Contribute to a local Indigenous-led organization through our land acknowledgment practice

Offset convening costs to support programs, foster collaboration and advance TFN's work

Actively implement accessibility measures so every participant can fully engage and contribute at TFN events
